GET THE BEST DIGITAL RESOURCES

Here are just a few examples of the many ways netTrekker connects with district stakeholders to help them make a difference. Use this checklist to share the benefits of netTrekker with your colleagues and share the success!

- Talk to your **Curriculum Directors** about how they can count on netTrekker's standards-aligned digital content for complete K-12 curricula support, including an emphasis on 21st century skills, the ability to share the best resources with students and colleagues using My Portfolio, and integration with assessment programs for complete remediation support.
- Ask your **Technology Specialists** if they'd like to use netTrekker's ability to harness the power of the Internet to get specific, web-based technology tools that deliver safe digital resources with no worries about hardware repairs or software upgrades.
- See if your **Library/Media Specialists** could use netTrekker's time-saving, consistently safe digital content to meet the learning needs of all students while supporting information and media literacy.
- Would your **ELL/ESL Educators** benefit from the consistent success they'll get with netTrekker's customized English Learners Channel that includes resources designed to support ELL students? The Dictionary/Translation Hot Key and Read-Aloud features can also help their students keep pace with the rest of the class.
- Show your **Special Education Instructors** how netTrekker's Universal Design for Learning and unique features, such as Read-Aloud and the Dictionary/Translation Hot Key, will allow them to personalize instruction to meet the needs of every student.
- Talk to your **Teachers** about how they can rely on netTrekker to save them valuable time because they will easily find only standards-aligned resources that are safe, relevant, and engaging.
- And your **Students and Parents** will love being able to access netTrekker anytime, anywhere for help with homework!
